DATE ADJUST

DIVE READY  
water resistant  
to 200m.

*Note: with the Crown out, your watch is water resistant to only 30m. Before your dive, make sure the Crown is tightly secured to ensure 200m water resistance.*

dive time

SET DIVE TIME

Before you dive: determine how many minutes you will be underwater. Rotate bezel to preset time limit. For example, if you want to dive for 15 minutes and the current time is 1:00 PM, you would set the bezel to 1:15 PM.

During your dive: check your watch periodically to monitor your time underwater. Because time and your available air are of the essence, maintain strict monitoring of your time and adhere to your predetermined time limit. Allow yourself enough time to surface.

bezel

The stainless steel bezel will only rotate counterclockwise. This is to ensure that any accidental movement of the bezel will only subtract minutes from your preset dive limit.

specifications

WATCH MATERIALS

crystal  
 mineral glass  
 casing  
 plastic resin  
 stainless steel  
 (Cayman Metal)  
 caseback  
 stainless steel  
 strap

200 meters  
*(only 30m if Crown is unscrewed)*

ONE YEAR LIMITED WARRANTY

Your Nike watch is warranted to be free of defects in materials or workmanship, under normal use, for a period of one year from the date of original retail purchase. This limited warranty excludes the battery, crystal, strap, or damage resulting from improper care or handling, accidents, modification, unauthorized repairs, or normal wear.

Return the defective watch and the store receipt to the place of purchase. If there is a covered defect, the defective parts or watch will be repaired or replaced, at Nike's option, with the same product (if available) or a similar product of equal price.

This limited warranty is in lieu of all other express or implied warranties, and excludes refund of the purchase price. In no event shall Nike be liable for direct, indirect, incidental or consequential damages arising out of the use of the watch, and any recovery is limited to the purchase price. No other person or company is authorized to change this warranty, and your dealer is solely responsible for any other warranties.

Your Nike watch is a precision sport time piece, sealed at the factory for water-resistance. In order to maintain your watch's warranty, functionality and water-resistance, all service including battery replacement must be performed at an authorized service center.

If your Nike watch has a translucent colored strap, the strap's color and translucence may fade over time due to exposure to UV radiation, your skin's ph factor, sweat and strong dyes in clothing. Any such discoloration and fading is not covered by the warranty.
